Subject: 205 Skidtube with Non-Conforming Aft Bend

David,

We have a D205-634 Skid with a non-conforming aft bend:
The bend's height is 2.0" instead of 1.4" as per D2580 Rev. D (see attached drawing sheet 2).
According to Eric Downing, the assembly of the end cap would not be affected.

Manufacturing would like to get engineering approval for this deviation.
Are you OK with this?

Thanks!
Marc
